twelve-room brick residence at 1810 Kali-orama avenue, northwest, Inswhich she will make her home.

For J. W. Moyer the sale-was made of two lots on the west side of Sixth street northeast, between H. and I streets. The H. R. Howenstein Company, which pur-chased the projects, will make improve-ments during the easeing season by building averal houses on the ground.

Basiness Property Sold.

Basiness Property Sold.

A large sale of Ninth street business property was completed yesteday when a dead was recorded transferring the three-story building at 181 Ninth street northwest from Howe Totten to Rufus E Boyd, the present occupant of the lest floor of the building. The price is innounced as about 187,000, by Jordan & Co., the real estate brokers negotiating the deal.

& Co., the real estate brokers negotiating the deal.

The building was purchased together with the building at the northwest corner of G street by Mr. Totten about eighteen meaths age from William 4C Dodge, when a large improvement was planned. This plan was not carried out, but the property was held as an investment and speculation, with the result that a part of it now has been seld for a considerable advance over the price pild a year and a half ago.

The property coil to-day has a frontage of twenty-five feet and a depth of 105 feet to an alley.

Robert L. Nason has purchased from L. T. Breuninger the two-story, eight-room dwelling at 200 Thirteenth etreet northwest, one of the ten new houses just completed at Columba road. The sale was made through the effice of Harry V. Bouin & Co., for 181,00. Eight of the others have been said for 17,00 each. The nale of the nine-room dwelling, at 253 Twenty-eighth street northwest, for 18,00 Mr. Breuninger, is also announced.

The lot at the northeast corner of 14th and C streets northwest, occupied in part by the plant of the Potomac Power company, has been transferred to that company by the trustees of the C. C. Wil-lard cestile. The consideration named in the deed is nominal, but the property is assessed at \$40,000, which is considered but little more than half its value.

WILEY IS UPHELD BY G. W. U. HEAD

Admiral Stockton Says Dr. Eliot Was Harvard's "Best Beggar."

Allegations of an incompetent educa-tional system in American universities, made Priday evening by Dr. Harvey W. Wiley in an address before the annual raily of the Federal Schoolmen's Chub, were commented on yesterday by presi-dents of local institutions. The assertion that the bead of a university in this country is elected for his ability as a beggar as well as a master was corrol-grated by one of the leading educators questiopped.

orated by one of the leading oducators questioped.

'I feel rather besitant in replying to Dr. Wiles," said Dr. Percival Hall, of Gallaudet, "because I presided at the meeting at which he spoke. But I will say that in so far as I am concerned I don't believe I was eslected because of my ability to solidit endowments. As to the real reason I was relected. I would rather have you sake my board of directors. I'do not care to pass an opinion on the presidents of other inatiuations."

True to His Trust.

Rear Admiral Stockton (retired), president of George Washington University, said:

"Dr. Wiley's allegations contain no new charge. I believe with him that a great many of our universities select their presidents with their qualifications as solicitors of funds in view. I am certain that it is not true in my case, because I am a very poor beggar. It is a well-known fact that Dr. Elbot was chosen by Harvard because he was capably of interesting moneyed men in his truet by the control of the control

should.

"When I say that college providents are selected for their ability as solicitors of endowments. I do not mean to belittle the other qualities of my colleagues. They must also be well educated and quality as scholars in addition."

The directors of the Washington Samperbund, in an amounteement yesterday, appointed Armand Gumprecht as successor to Heinrich Hammer, former conductor of the Stengerbund chievas.

Politics and Prosperity-Outside Disturbances-Business-The British Coal Strike-The Situation.

The candidacy of Mr. Rooswell, announced early in the week, ascens not to have produced the impression which the carcular worselves published was means to the carcular worselves published was means to the carcular worselves published was means to the carcular worselves published with the carcular worselves and published world, the matter, except as the subject of conviersation, has received Hittle attention. In other words, real events are proceeding as before, without considering the Bousevell possibility as a factor in determining setion.

This question of a President, it seems, will be settled this time by the business amen of the country. The paramount question is what is best for business? This is so because after a year or two of conditions appreaching hard times, the fact is forced upon all classes of thinking people that nothing is of importance if your business is not good. Mr. Boosevell himself admits, and even emphasizes this. He said in his Ohlo speech, and relievated it in an interview at Boston, that two things that he was specially after were real popular rule and—"Securing prosperty for business man, waspe-carrier, and farmer alffee."

At the monsoit, it must be conceded that the whole political situation, with its torn-up Republican party and its Domocratic party with six hot asymmus for the nomination, is a large factor in bolding tock me considering process in the business world. It may be presumed that after the nominations a more com-

new campaigns of progress in eas world. It may be presumed r the nominations a more con-judgment as to the future will

with the bill, showed that the Senate subcommittee of the District Committee and thereughly gone into the proposition to establish a new municipal hospital on the street of the Senate street of establish a new municipal hospital on the proposition of the six of the Washington Asylum. This plan, which was suggested by Representative Poster, was published sexulusively the The Washington Herald of February 77. It was stated yesterday that advous the second of the sexulusively on the sexulusive and structed buildings now vacant at the sexulusive sexulusively of the sexulus president Tart of land, competing swenty ended to the sexulusive sexulusive sexulusive and conservative action. And herein the sexulus sexulusive and conservative action. And herein the sexulusive sexulusive and conservative action. And herein one-half acres, and improvements on the land. The commissioners are authorized to purchase the land at an expense not exceeding 250,000, and it is provided it they are unable to buy the land at what they shall follow the precedent of the Public Printer in equiring land for an addition to the Government Printing Gomes. The remaining 50,000 is to be used in improving the property.

\$230,000 for New Central High.

In the school budget practically every tem requested by the based of extension each line in the received of the public Printer in equiring land for an analysis of the school budget practically every tem properties to the public property.

In the police department, besides generally advancing salaries which were cut by the House, the Benate restores the department of criminal identification by providing BLEs salary for a sergeant in charge. For the general aid of the National Bureau of Identification, the Senate committee allows 8000 instead of the EDS provided by the House.

Provision is also made for the purchase of a site for the erection of a station heates in the suburban section of the city between the Ninth and Teath precincts at a cost of not more than BLES. For the reconstruction of cell carridors BR.005 is appropriated.

mittee struck out the appro
